### ABOUT

I'm a cloud-focused engineer passionate about designing scalable and reliable cloud solutions. I specialize in optimizing infrastructure, enhancing system performance, and ensuring seamless deployments. Currently, I'm also exploring DevOps methodologies to streamline operations and improve cloud efficiency.

### EXPERIENCE

#### Cloud Support Engineer

Sevail Technologies (Full Time)

Client : Daimler

Aug 2022 - Present

- I have been responsible for managing, troubleshooting, and optimizing cloud infrastructure across AWS and Azure.
- My role involved proactive monitoring, incident management, and CI/CD pipeline maintenance to ensure high availability and performance of cloud-hosted applications.
- I worked closely with development and DevOps teams to streamline deployments, automate infrastructure, and enhance security postures using IAM, encryption, and logging mechanisms.
- I played a key role in cost optimization by analysing cloud resource utilization and suggesting scaling strategies.
- With hands-on experience in Terraform, I contributed to infrastructure automation, reducing manual errors and deployment times. I also provided technical guidance and documentation to help teams adopt best practices for cloud security, networking, and DevOps workflows.

#### Full Stack Developer

Freelancer (Part Time)

Jun 2020 - Mar 2022

- Worked as a part time developer during my under-graduate studies.
- Delivering captivating UI designs and responsive front-end solutions
- Collaborated with clients, meeting design goals, and exceeding user expectations.
- Extensive experience in modern web technologies, ensuring seamless user experiences.

### EDUCATION

#### Bachelor of Mechanical Engineering

Alagappa Chettiar Govn College of Engg and Tech

Jun 2018 - Jul 2022

- Graduated with honors

### Key Competencies

Agile Methodologies  
Communication Skills  
Collaboration and  
Teamwork  
Problem-Solving

### Skills :

#### Tools & Platforms

AWS, Linux, Jenkins,  
Docker, Terraform,  
Prometheus, Grafana,  
Python (Scripting),  
Git & GitHub

### Languages

JavaScript(ES6+),  
PHP(8x+), Python  
(Scripts)

### Libraries & Frameworks

React.js, Node.js,  
Tailwind CSS, Bootstrap

### Languages

Tamil (Native)  
English (Proficient)

### Socials
